# 2021: Digital workplace trends & insights report

- Surveyed 800 full time at organizations over 1,000 employees
- Uncovered the challenges they face communicating, collaborating and sharing knowledge
- Break down the findings and provide recommendations for organizations that will have the biggest impact

## KEY FINDINGS

Our research revealed 4 key findings:

1. Remote work has amplified underlying workflow issues
2. Meeting fatigue is the new app fatigue
3. Employee happiness is stable, but engagement is slipping
4. IT gaps are widening in remote work environments

# Where do we go from here?

Our survey revealed employees are experiencing significant workflow challenges. But organizations can start addressing these issues now by prioritizing:

1. Seamless collaboration
2. Continuous communication
3. Centralized knowledge
4. Streamlined processes
5. Inclusive culture

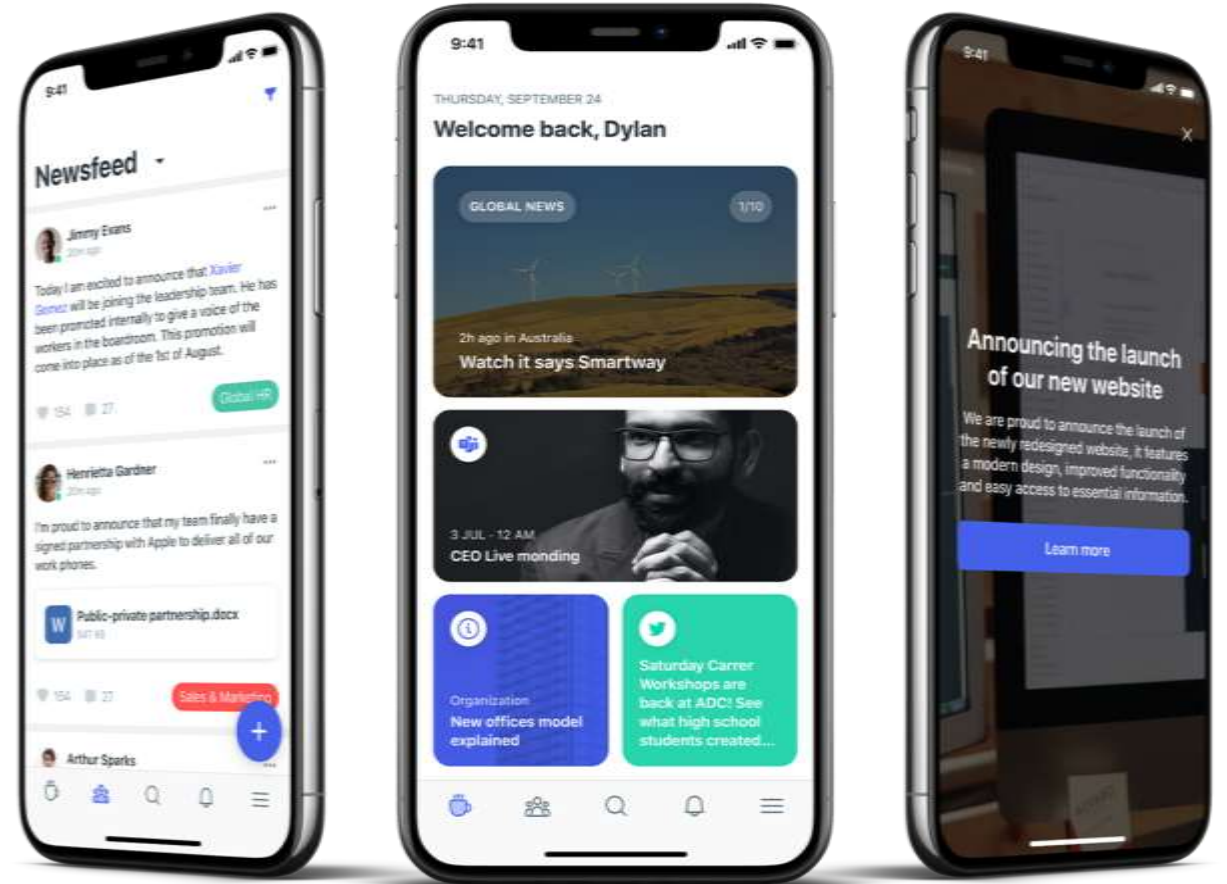

## How to solve these challenges.

---

How to boost employee engagement:

1. Personalize the Digital Workplace Experience for your employees
2. Integrate all your third-party tools in a single pane of glass
3. Available on every device
4. Asynchronous collaboration across time zones.
